

Diabetic

Edmonton, Alberta
Canada

Dr. Scott Rigden, M.D.
Forever Living Products
Phoenix, Arizona

I would like to take this time to express my thanks to Forever Living Products for developing aloe vera products which I have been using in the past few months. The product aloe vera juice and drinking pure water from my Charo 2000 helped me to overcome my diabetes.

For the past 4 years I have been a diabetic, at which time I was taking 80 units of insulin daily. In July 1986, I was introduced to the aloe vera products by two gentlemen, Mr. Leon Phillips and Mr. Danny Ramos.

I was a bit skeptical about the product at first when they told me that it could help my health. Three weeks after I received 2 bottles of the aloe vera juice, I started to drink 9 ounces of it every day. After taking the juice, I started to have severe headaches, not knowing that because of the aloe vera, I was taking too much insulin.

I decided to go to my doctor to get my blood monitored. My doctor did a complete blood analysis and told me to reduce my insulin by 2 units every second day and to continue seeing her so she could monitor my blood. I went to see her the following week and instead of reducing my insulin by 2 units a day, she told me to reduce it by 4 units, after that I was told to come and see her every Wednesday for one month.

By the end of the month I was completely off my insulin, this makes me the happiest man in the Universe, and I am also happy to say, that in the space of 2 1/2 months, I have lost 45 pounds, of which my regular weight was 255.

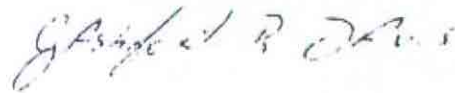

I am happy and proud to be a member of Forever Living Products, and since becoming involved, I have introduced our great aloe vera products to several people who have had great results.

I would like to give my thanks first to God, then to Forever Living Products who have developed the marvelous and miraculous aloe vera juice. I would also like to thank the two gentlemen who introduced the products to me.

Thank you aloe vera products.

Yours sincerely,

Y. R. (Ray) Davis
